### **Chicago to Celebrate National NeighborWoods Month**

*Sponsored by The Home Depot Foundation*

**Chicago** – October 1, 2006. Openlands today announced that it will plant/maintain 70 trees during three events to celebrate NeighborWoods Month. These events are three of more than 100 regreening efforts throughout the country being promoted during October, which has been declared National NeighborWoods Month by the national nonprofit, the Alliance for Community Trees (ACT). Openlands is a member of ACT's NeighborWoods Network.

"It's great to be working on an important regreening effort at a time when other organizations are doing so as well," said Glenda Daniel. "Part of our goal is to draw attention to the good work being done at the grassroots level all across the country to improve urban and community forests."

Openlands's celebration will take place as follows:

Oct 7, 9 a.m. to 12 p.m., Burnham Nature Sanctuary Restoration (savanna restoration).

Oct 7, 9 a.m. to 12 p.m., call for location: Lakefront Planting (to enhance bird habitats at the lakefront).

Oct 14, 9 a.m. to 12 p.m., along the river: Gompers Park Pruning/Mulching.

"Having local organizations like Openlands participate in National NeighborWoods Month helps us show the cumulative effect of a burgeoning urban and community forestry movement," said ACT Executive Director Alice Ewen Walker. Founded in 1993, the Alliance for Community Trees is a national coalition of 97 nonprofit organizations engaged in urban and community forestry. Its members are dedicated to grassroots community greening, public education, policymaking, job training, environmental design and other activities that support better urban forest stewardship.

Strategically planted trees contribute to energy conservation, improved children's health, increase property values, lower crime rates, save municipalities money through savings in stormwater management infrastructure, and encourage shoppers to linger longer. For example, children in neighborhoods with fewer trees have five times less lung function and higher school absences. Shaded streets require about 60% less sealant roadwork than unshaded streets. It is estimated that for every \$1 a city invests in trees, it receives up to \$3.74 in benefits.

NeighborWoods Month is sponsored through a generous grant from The Home Depot Foundation.

"National NeighborWoods Month offers a unique opportunity for people to understand the contributions of trees to the health, beauty and livability of their communities," said Kelly Caffarelli, executive director of The Home Depot Foundation. "By partnering with ACT and local NeighborWoods organizations like Openlands, The Foundation is able to further its goals of investing in the overall health and success of our communities."

### **About The Home Depot Foundation**

The Home Depot Foundation was created in 2002 to further the community-building goals of The Home Depot by providing additional resources to assist nonprofit organizations in building affordable, efficient and healthy homes throughout the United States and Canada. The Home Depot Foundation administers grant-making programs in the areas of "Affordable Housing, Built Responsibly" and "Community Trees – Healthy Neighborhoods." Since its formation, The Home Depot Foundation has granted more than \$25 million to nonprofit and government organizations throughout North America.
